Spoiled rich kid.
Daddy died, naive idealist.
Went to Afganistan, was nobody, had money so guys liked him only because of that.
Russian agent "egyptian" came (if you are not redpilled on this, your in for a treat when you do, hint, FSB, plutonium, litvienenko, death bed, press conference no bakalava)
Al Zawahari tells nobody rich boy to listen to him
they kill boss mujahedeen (their bro I guess) and start making a group
Al Qaeda is born slowly
Isis grand daddy abu musa al zarqawi says fuck this shit dont like it
Afgan war is done, they all run back to desert in ME, instead of heroes everyone is pissed they did not die there and dont want em ruining their petro dollars.
Naive rich boy still thinks its ideals and bs and listens to russian guy to his death.

tl;dr: he was naive idealist and would be nothing without his daddys money

Sometimes when I look at my penis, I can't help but think that it was ripped out by an attacking alien.

My previous journey with estrogens — the female hormones that affect male sex characteristics — was fairly traumatic. My job in the military left me unable to even hold a steady job. While at home, I went through a cold and flu attack and was diagnosed with depression.

Yet all of that was worth it when it came to my surgically masculinized manhood.

Before the medical interventions, my penis had been hiding its true nature. Some doctors would slap a bandage on it and tell me it was a feminine member. Others would have me having various and invasive procedures in an attempt to feminize my penis
